Approximate Bayesian computation (ABC) constitutes a class of computational methods rooted in Bayesian statistics. In all model-based statistical inference, the likelihood function is of central importance, since it expresses the probability of the observed data under a particular statistical model, and thus quantifies the support data lend to particular values of parameters and to choices ...

TGIF is the name of a defunct American prime time television programming block that aired on ABC, initially from 1989 to 2000. The name comes from the initials of the popular phrase "Thank God It's Friday"; however, the stars of the lineup touted the abbreviation as meaning "Thank Goodness It's Funny." The block mainly featured situation comedies aimed at a family audience.
