If you look around in the literature and also in the internet, then the amateur self-made instruments (ATM) in the last 50 years has hardly developed. There are indeed bigger telescopes built today than 50 years ago, other materials are used, other motor-types and it has been added some electronic whistles, but basically come still the same old and supposedly proven designs back.

ATM and other DIY projects - HARPOINT OBSERVATORY

1 - The taxicab is in a "dead spot" and unable to connect to the data network for credit/debit card approval. If

located in a "dead spot" driving to another location may result in a successful credit/debit card transaction. 2 - The passengers credit/debit card is invalid / over the limit. In this situation, the driver should seek out an ATM to enable the passenger to pay in cash.
