Biodiversity is important, more than just the 'I want my children to enjoy it' reason. For example, the richness of diversity allows medicines and foods to be naturally available. The natural disaster prevention mechanisms in most ecosystems and other free services we all get from the surrounding environment are not easily replaceable or replicable, so maintaining biodiversity is important.

### **Esri Training**

Presentations look across the American Memory collections to investigate curricular themes. They include historical background, helping to tell the story behind the theme. Activities offer an interactive, "hands on" experience and focus on a specific topic, rather than broad themes. They require teacher direction, but invite students to participate.
